Question: The bid states that the first round of groundwater monitoring shall be performed before beginning free product recovery and then once free product recovery has been completed quarterly groundwater monitoring shall be conducted for two years. Please confirm that this is requesting bidders provide pricing for nine (9) quarterly sampling events.

Answer: That is correct. We are asking for 9 rounds of sampling.

Question: Is there a specific volume for vac truck pumping that should be used for bidding?

Answer: Provide bid based on a 50 gallon removal event. Please provide a unit cost as the removal events may be adjusted depending upon the results.
